

The **BL200 series** is an electronically operated pushbutton coded lock designed to work on a large range of cabinet and locker doors. The ergonomic design and simple operating procedure ensures access for authorised personnel only, whilst allowing users to change their own codes. The unit comes with 4 user levels, master code, sub-master code, user code and repeat-use mode making it ideal for use on gym lockers where the same code is only likely to be used once.

Each lock comes with 3 interchangeable cam pieces, 47mm offset cam and 35 or 45mm straight cam. The unit can be fitted to doors ranging from 2mm to 22.5mm thick and are universal to suit left and right hand hung doors.
